

255001 – Arrivé Hamilton Slim Brief

Hi, I'm _____ from Tumi, and I'm here with the Hamilton Slim Brief from our Arrivé collection.

This stylish bag was built to help keep you organized, no matter where your job takes you.

It's made from rugged HTLS polyester fabric and is embellished with molded leather trim for added sophistication.

The Hamilton's durable metal handles are also covered with leather, which makes carrying this briefcase a real pleasure. We've also included a detachable strap for an over-the-shoulder alternative, as well as an Add-a-Bag sleeve for convenience while you're traveling.

Now don't let the Hamilton's slim profile fool you: three large compartments provide all the room you could possibly need. The middle and front pockets are spacious enough to carry your files, folders, or other essentials, and the back is designed to hold your 15-inch laptop. This compartment even features a ballis-tech lining to keep your computer from getting banged around.

From iPods to business cards to pens, this bag has a place for it. And we've also included our patented ID Lock pocket, to help keep your credit cards, passports and other personal information secure.

Of course, what good would all these features be if your bag got lost? Luckily, we've included the trusty Tumi Tracer, as well as a magnetic luggage tag that lays flat against the bag.

Whether you're travelling on business or just presenting in the boardroom, the Arrivé Hamilton Slim Brief offers everything you need to keep you organized—and make a great impression.
